GRAND MIRRORS

The leading global mirror company, designs and manufactures premium quality lighted mirrors for hotels, salons, and restaurants, as well as for residential projects.

Our ongoing research and development make Grand Mirrors thinner, brighter, and easier to install than ever before.

Every day, we are driven to deliver the highest quality mirrors, equipped with the latest features and technologies to our customers in the US and around the world.

WHY A LIGHTED MIRROR MAKES SENSE?

People who have one, know why, and they will never use a regular mirror without light anymore.

When the light is integrated in the mirror, you will have a clear view without shadows on your face because the light is directed towards you.

You don't need to worry anymore where to install expensive light fixtures in your bathroom or salon, because a Grand Mirrors lighted mirror will always provide the perfect light when you look in the mirror.

OUR PRODUCTS

MARBLE

This is Grand Mirrors MARBLE Where Elegance Meets Timeless Craftsmanship.

Each frame is a unique work of art, meticulously handcrafted from solid marble. With its distinct veining and luminous polish, it transforms any mirror into a timeless focal point of sophisticated style. Available in classic and statement hues, including Black Classic, White Classic, Sand Cream, Green Forest, and Golden Brown. Elegantly crafted in 3" and 4" widths to complement our premier mirror collections.

More than an accessory it's the defining statement that frames your vision. A masterpiece, exclusively for your Grand Mirrors.

lumière

Grand Mirrors LUMIÈRE creates a beautiful mirror with its frosted edges. With up to 3" wide frosted part, the light spreads evenly all around the mirror and goes through the front and back that provides indirect light to the bathroom. It is made to any size that gives an extra dimension to bathroom, hotels, salons, and much more. With our CNC computerized mirror cutting machines, the glasses are built with extreme precision and can create the mirrors exactly in the size and shape you want.

SINCE 2001

Engrave

Elevate your space with ultra-sharp, permanent laser engraving directly onto mirror surfaces. Grand Mirrors ENGRAVE offers exceptional clarity for logos, branding, and icons, seamlessly integrating into your interior design.

Commercial Advantage

Infuse your business environment with clean, elegant, and maintenance-free branding. Perfect for logos, QR codes, or slogans, it creates a professional identity without extra components.

Residential Option

Homeowners can add refined personal details like monograms, quotes, or delicate artwork to complement their décor.

Why Choose Grand Mirrors ENGRAVE?

High-definition, permanent laser engraving.
Maintenance-free, refined finish.
Compatible with all Grand Mirrors models.
For premium branding & discreet personalization.

Professional

Founded in 2001, we bring two decades of experience in the mirror and technology industry. With Grand Mirrors, we offer highly customizable mirror solutions, allowing you to unleash your creativity and design your business premises exactly the way you envision it.

Hospitality

Trusted around the world, Grand Mirrors is the preferred bathroom mirror supplier of hotels, resorts, high-end condominium projects and much more. With countless hospitality projects completed over the past decade, Grand Mirrors continues to innovate new styles and technologies and make mirrors more stylish and useful in any bathroom.

CUSTOMIZED MIRROR

More than just a reflective sheet of glass, mirrors are the centerpiece of a space. Be it an office, a living room, or even a bathroom, having the right mirror on display can truly bring everything in the room together - making the spaces you inhabit a pleasant experience for yourself and for everyone who passes through.

But what do you do when, after searching and searching, you just can't find the mirror that's perfect for *you*? What do you do when, forget the style, you can't even find a mirror that can fit where you need it to?

We at Grand Mirrors believe in making mirrors that are made-to-measure, tailoring every item we produce to suit your needs - all while still being unbeatable in quality and value for money.

ANY SIZE, ANY SHAPE

With our high precision automatic glass cutting machines, we can reproduce any shape you want with extreme accuracy and sizes up to 23 feet x 8 feet.

FLEXIBLE QUANTITIES

Grand Mirrors is very flexible. We accept orders in any quantity and size. So you can order 1 mirror or 1,200 mirrors, you are welcome at Grand Mirrors.

PERSONALIZED ADD-ONS

Looking for more from your mirror? Explore our wide range of add-ons that elevate your mirror from a stunning centerpiece to a cutting-edge solution you'll enjoy for years to come.

Be sure to check our website for a complete list of available add-ons and what mirrors they can be added to.

CUSTOM CUT-OUTS

Experience precision with our custom cut-outs tailored to accommodate faucets or light fixtures. Utilizing advanced CNC technology, we ensure a perfect fit for your mirror, crafted with remarkable accuracy.

FRAMES

Enhance your mirror with solid marble, 316 stainless steel, brass, and walnut frames. Premium materials designed for durability, elegance, and a timeless look.

BEVELED EDGES

Elevate your mirror's elegance with our finely crafted beveled edges, available on most mirrors with bevel widths up to 1.5"/38mm.

NIGHT LIGHT

Illuminate your space with our discreet night light, which shines from beneath the mirror. Featuring a concealed sensor, this practical addition enhances the ambiance of your environment.

STAINLESS STEEL & BRASS BRACKETS

Choose from our premium brackets, available in 316 stainless steel and solid brass for superior strength and corrosion resistance. Offered in a variety of finishes and styles, they provide secure and elegant solutions for ceiling and/or countertop mirror mounting.

TOUCH CONTROL

Effortlessly control your mirror's settings with our intuitive touch control. Easily adjust brightness, color, and program while saving personalized preferences. Compatible with all Grand Mirrors products, touch control offers a seamless user experience.

DEFOGGER

Equip your mirror with a defogger to maintain a clear and pristine reflection, even after a steamy shower. Choose from various shapes and sizes to match your mirror's dimensions.

Defogger Power Consumption:
15 W/sq ft (160W/m²)

ROUNDED CORNERS

Rounded corners on a bathroom mirror enhance safety by reducing injury risks, provide a modern aesthetic that complements contemporary designs, and increase durability by minimizing chipping or cracking.

AURA

Grand Mirrors AURA combines elegance and technology with a sleek LED band design, available in different shapes, offering a radiant focal point and unmatched lighting. Its slim 10mm design provides precise illumination, ideal for grooming and skincare.

LOGO

Add an illuminated logo to your mirror to make a lasting impression. It's a perfect feature for offices, restaurants, spas, and barber shops.

OUR TECHNOLOGY

With all of the lighted mirrors on today's market, it's easy to wonder what exactly the difference between all of them is. What makes a sheet of glass so special? Is it in the lights? The shine? Here at Grand Mirrors, what separates us from our competitors is our dedication to you, our clients. We want only the best of the best reaching you and that means we're continuously innovating to make sure you get an investment you'll enjoy for years and years after.

Here are just a few of the many technologies we've developed over the years to ensure that every mirror is truly a Grand Mirrors.

Why Grand Mirrors Is Different

GRANDMIRRORS

VS

Other Mirrors

✓ **Fully Customizable**
Designed and manufactured exactly to your requirements - no limitations in form, dimensions, or application.

VS

Limited Options
Typically available only in standard shapes and sizes, with little to no customization.

✓ **Advanced LED Technology**
Energy-efficient, cutting-edge LEDs reduce power consumption and operating costs. The specially designed LED housing minimizes light loss and maximizes usable lumens.

VS

Basic Lighting Technology
Simple engineering leads to light loss and lower efficiency. Illumination is often uneven, and individual LED points may be visible.

✓ **Premium Philips LED Lighting**
High-quality, long lasting LEDs from trusted brand PHILIPS.

VS

Generic, No-Name LEDs
Unbranded LEDs can result in inconsistent output and color changes over time.

Generic
No Brand

✓ **Ultra-Thin LED Mirror**
LUX features an ultra-slim design at just 0.4 inches (10mm), delivering a modern, sleek appearance (model dependent).

VS

Much Thicker Design
Often based on outdated lighting technologies such as fluorescent systems, resulting in mirrors up to 1.5-2 inches thick, wasting space and compromising a modern bathroom aesthetic.

GRANDMIRRORS

VS

Other Mirrors

✓ **Safe Low Voltage System**
 Powered by a secure 24-volt system for maximum safety and reliability.

VS

High Voltage Risk
 Uses 110-220V systems directly connected to the back of the mirror, increasing risk in wet environments and potential conflicts with local electrical codes.

✓ **Durable & Secure**
 Reinforced safety backing secures the mirror in case of breakage and protects the silver coating on the back of the mirror.

VS

Unprotected & Unsafe
 Without safety backing, broken mirrors can scatter sharp pieces, creating hazardous situations. The exposed mirror coating is also vulnerable to damage and deterioration over time.

✓ **Secure Wall-Mounted Installation**
 Engineered for strong, stable, and long-lasting wall mounting with professional-grade fixations.

VS

2- or 4-Point Mounting
 Limited mounting points make installation more difficult and may not provide sufficient strength or stability, especially for larger mirrors.

✓ **High-Quality Mirror Glass**
 Corrosion-resistant mirror glass with bright, clear reflection and no green edges, even after years of use.

VS

Regular Mirror Glass
 Mirror glass varies widely in quality. Lower-grade glass is prone to deterioration, has green-tinted edges, and offers reduced clarity.

GRANDMIRRORS

VS

Other Mirrors

✓ Computerized Glass Cutting

Glass is cut with extreme precision using computerized machinery, allowing exact dimensions in any size, shape, or form.

VS

Manual Cutting

Manual cutting results in larger tolerances than necessary, reducing precision and consistency.

✓ Laser-Etched Light Panels

Laser-etched panels provide a smooth surface, precise edges, higher light efficiency, and even illumination.

VS

Sand-Blasted Light Panels

Sand blasting is less precise, can create uneven, rough surfaces, and leaves edges that may trap moisture, accelerating deterioration and corrosion.

✓ Diamante-Polished Edges

All edges are polished to a diamond-like finish for a refined look, easy cleaning, and reduced risk of chipping.

VS

Regular Ground Edges

Standard grinding is a common and fast process, but it results in matte, non-transparent edges that are harder to clean and give the mirror a less refined appearance.

✓ UL-Certified Wiring & Connectors

All internal wiring and connectors are UL certified, ensuring safety, reliability, and consistent performance in humid environments.

VS

Non-Certified Wiring & Connectors

Wiring and connectors are critical to product longevity. Non-certified components can be unreliable over time and may lead to performance issues.

GRANDMIRRORS

VS

Other Mirrors

✓ **Rock-Solid Power Supply**
Premium Mean Well power supplies deliver exceptional reliability, IP67 waterproof protection, UL compatibility, and easy servicing, with options for DALI, TRIAC, and constant voltage.

VS

Non-Waterproof, Mirror-Mounted Power Supply

Power supplies are not waterproof and are attached directly to the back of the mirror. Heat buildup may cause deterioration and reduced lifespan over time.

✓ Japanese-Manufactured Acrylic Light Boards

Made from premium Japanese optical acrylic for maximum transparency, durability, and long-term clarity without yellowing.

VS

Common Light Boards

Standard light boards offer lower clarity and transparency and may yellow over time.

✓ SMD LED Technology

Grand Mirrors exclusively uses SMD LEDs for higher efficiency and brightness.

- SMD LED: 110 lm/W
- COB LED: 70 lm/W

This results in brighter light with significantly lower energy consumption.

VS

COB LEDs

COB LEDs are often used to conceal LED dots without the need for specially designed housings. However, they deliver 30-40% less light output per watt compared to SMD LEDs.

✓ Ongoing Product Testing

All parts and components are regularly tested in extreme climate simulation chambers to identify potential issues. This ensures Grand Mirrors are reliable not only for residential bathrooms, but also suitable for demanding environments such as hospitality, marine, and aerospace applications.

VS

Unknown Testing Procedures

Mirrors are expected and promised to have a product lifetime of 10-20 years. Proper testing is therefore critical to support these expectations and claims.

LIGHT OPTIONS

Grand Mirrors integrates a light transfer technology, which causes the light to be directed right towards you resulting in a very effective light that is up to 3 times brighter than other mirrors.

Choose from Warm, Cool, True Light, RGBW, or Philips LEDs.

For the Warm, Cool, True Light, and RGBW have wireless dimmers available. You also have the option to add Philips LED lights with dimmers.

STANDARD Warm (3000K)	STANDARD Cool (6000K)	TRUE LIGHT (2700K-6200K)	STANDARD RGBW
PHILIPS Warm (2700K)	PHILIPS Warm (3000K)	PHILIPS Natural (4000K)	PHILIPS Cool (6500K)

True Light

Other Mirror
Integrated Light

GRAND MIRRORS TRUE LIGHT TECHNOLOGY

With True Light Technology, you don't need to choose between cool and warm light anymore.

Getting ready for your day at work? The cool tone simulates the light in the office, while the warmer color will represent the color for a night out.

Do you want to match the light exactly with other lights in the bathroom?

Choose from the full spectrum between 2700K and 6200K and quickly set the color and brightness with the wireless remote control.

TOUCH CONTROL 430

Easily control your lighting with our Touch Control 430 remotes, included with every purchase of a Grand Mirrors True Light product.

TOUCH CONTROL REMOTES

- Wireless and to be used within 20ft/6m of the mirror.
- Turn the mirror on and off, change the brightness, change the color of the LED light, program and save personal setting.
- Smooth on-off (the light decreases and increases in brightness when turning off and on).
- Support different mirrors with only one controller.
- Supports up to 4 controllers, so use where convenient.
- Use the controller anywhere you want. Mount to the wall, or on the countertop, stick it against the mirror, or just carry around.
- Sync easily to the mirror light
- Stylish and durable design. Made of durable glass, easy to clean.
- Use 2x AAA batteries (estimated time life batteries: 14 months with average use).
