OUR TECHNOLOGY

With all of the lighted mirrors on today's market, it's easy to wonder what exactly the difference between all of them is. What makes a sheet of glass so special? Is it in the lights? The shine? Here at Grand Mirrors, what separates us from our competitors is our dedication to you, our clients. We want only the best of the best reaching you and that means we're continuously innovating to make sure you get an investment you'll enjoy for years and years after.

Here are just a few of the many technologies we've developed over the years to ensure that every mirror is truly a Grand Mirror.

Grand Mirrors is not just another bathroom mirror.

WHY GRAND MIRRORS?

GRAND MIRRORS

OTHER MIRRORS

MADE-TO-MEASURE

Grand Mirrors offers custom-made mirrors tailored to your exact size requirements. Our computerized CNC cutting machines ensure that each mirror is crafted with extreme precision.

LIGHT TECHNOLOGY

Captured LED Light: Grand Mirrors use a unique lighting system that is up to three times brighter than other mirrors, capturing light on the sides and the back of the mirror. Unlike decorative mirrors, Grand Mirrors products provide effective and beautiful lighting.

Equal Light Distribution: Our mirrors are installed with diffusers to evenly distribute light across the lit areas, delivering a high-quality, beautiful, and efficient lighting experience.

THINNEST

Grand Mirrors lighted mirrors are exceptionally thin, measuring only 0.4 inches behind the mirror compared to the 1.4 inches to 2.4 inches thickness of other mirrors.

(Note: Thickness varies per model.)

ELECTRICAL SAFETY

Grand Mirrors products use 24 volts power supplies, ensuring safety in the bathroom compared to mirrors directly powered by 110 or 220 volts. Why compromise safety when you can have a completely secure 24 volts mirror?

SECURITY FILM

All Grand Mirrors feature a security film on the back, preventing dangerous, sharp mirror parts from falling to the floor in the unlikely event of breakage. This safety feature makes Grand Mirrors suitable for installation in public areas and professional use, such as salons and hotels.

SECURELY WALL MOUNTED

Grand Mirrors come with two long wall mount rails for secure attachment to the wall. Many similar lighted mirrors only offer top-hanging construction, which can be unstable and unsafe.

GLASS QUALITY

Our mirrors are made with high-quality, corrosion- and rust-free mirror glass that offers the best reflection possible. Grand Mirrors are a worry-free investment that you will enjoy for many years to come.
